Carbon budget 2011-2100 MCJ-RCP2.6 (GtCO ₂ eq)	1831.1	1,3	0,071
Carbon budget per capita (tCO ₂ eq per capita)	2.2	2,2	
Carbon budget 2011-2050 MCJ-RCP2.6/PACB (GtCO ₂ eq)	1172.2	1,1	0,094
2025 emissions mitigation compared with 2010 MCJ-RCP2.6/PACB (%)	-29.7	-43,3	
2030 emissions mitigation compared with 2010 MCJ-RCP2.6/PACB (%)	-35.9	-54,9	
2050 emissions mitigation compared with 2010 MCJ-RCP2.6/PACB (%)	-50.8	-81,9	
Carbon budget 2011-2100 MCJ-RCP2.6/PACB (GtCO ₂ eq)	1831.1	1,3	0,071

Data sources:

- GHG emissions from 1990 to 2012 for non-Annex 1 countries have been obtained from the CAIT Climate Data Explorer of the World Resources Institute, <http://cait.wri.org/>, and for Annex 1 countries from UNFCCC databases http://unfccc.int/ghg_data/ghg_data_unfccc/items/4146.php
- GHG emissions data from 1970 to 1989 have been obtained from the database of the Climate Equity Reference Project supported by the Stockholm Environment Institute. <http://climateequityreference.org/calculator-information/the-climate-equity-reference-calculator-database/>
- Population historical data and future projections have been obtained from the database on UNDESA: <http://www.un.org/en/development/desa/population/>
